FAX (toll free): 1-866-STEINWAY

Thank you for choosing genuine Steinway & Sons parts. **When ordering, please provide your Customer Number, the part number of each item, and the quantity of the item(s) you wish to order.** Also, please include the Steinway model and serial number information if possible to help ensure we accurately fill your order. Please note that some furniture parts are shipped slightly oversized to allow for custom fitting.

For order fulfillment and shipping status, we recommend that you provide your email address. This will allow us to email you notification of shipment with the shipper tracking number for your convenience.

We ship via UPS. Prices listed do not include shipping and handling. A boxing charge may be necessary on select parts when applicable. If items sustain damage during delivery, notify us immediately so that we can file a claim with UPS on your behalf.

We offer a 30 day return policy on all orders. Please inspect your order upon receipt as we cannot make adjustments or credit your account after 30 days or on parts that have been altered. Certain items may incur a small restocking fee.

For your protection, ship returns via UPS, Federal Express, or other methods that require a signature upon receipt. If returned items are lost and delivery verification is not available, we can not provide credit. Parts must be returned unused and in new condition. **We must be advised prior to return to ensure credit.**

- We accept MasterCard, Visa, and American Express.
- Please note that there is a \$20.00 minimum per order.

Prices and specifications are subject to change without notice

004484	BACKCHECK FELT ONLY - 3/4" x 23/32"	EA	\$7
005066	BACKCHECK SKIN - 31" x 1 3/4" STRIP (normally requires two strips)	EA	\$44
006257	BACKCHECKS WITH WIRES - SET	EA	\$263
006245	HAMBURG - BACK CHECKS W/ WIRES - SET	ST	\$233

Our current backcheck with wire is the recommended replacement for the older style backchecks. The current wire is slightly larger in diameter and stiffer thus allowing more consistent checking. The current smaller size of the backcheck is not a concern – the area of the backcheck utilized for checking the hammers works very well on the older actions. The larger wire also eliminates the need to plug and re-drill backcheck wire holes in the keys. Also, the total backcheck wire and head length is of sufficient length for the older actions.

Please note: Preglued hammers are suitable for use on pianos with a hammer-hanging distance of 5 1/8". Since 1992 our standard hanging distance has been 5 1/8". On years prior to 1992, it is recommended to check this dimension. For pianos with a different measurement, hammers and hammershanks should be purchased separately and glued up by the technician according to the original hammer-hanging distance and strikepoint. Steinway & Sons does not offer custom hammer-hanging for older pianos.

<i>Our recommendation for shanks and flanges: The NYI (New York Improved) shanks and flanges should be used on any Steinway & Sons action from any vintage that has the metallic action rails with the rosette design. The placement of the knuckle is approximately 1 mm further toward the hammer thus providing better action efficiency. It is also recommended to anticipate some re-weighting of the keys whenever new hammers, shanks/flanges, and/or repetitions are installed on older pianos. In the rare event that a problem is encountered with inadequate let-off adjustment, our let-off button (part #5070) will allow for closer setting of the let-off due to its thinner profile.</i>

097195	KEYFRAME W/ KEYS - SHIPPING CARTON	EA	\$175
004490	KEYFRAME/BACKRAIL CLOTH & FELT (RED & GREEN)	EA	\$16

NOTE: The keyframe with keys is not fully "loaded"; in other words, it needs to be custom-fitted (trimmed) to the piano on 3 sides, and it needs balance rail bearings, capstans, backchecks, front rail punchings, balance rail punchings, balance rail cloth, back rail cloth, keyblock guide pins, wooden wedges (walnut), key end felt, sostenuto monkey guides, and sostenuto monkey spring block and spring. The keyframe with keys comes with a preleading schedule that begins with 2 large leads in the bass. In addition to the extra parts listed above, the keys will have to be weighed off with the appropriate addition of leads in the keys.

A good knowledge of grand finishing is necessary in order to successfully replace the keyframe with keys in a Steinway grand piano. You need to know where to place the capstans, and how thick to make the wooden wedges in order to set action height in relation to the strings.

<i>Our current New York Improved (NYI) repetition is the recommended component to use when replacing repetitions on any vintage Steinway & Sons grand that utilizes the metallic action rail with the rosette flange design. The improved placement of the jack center (approx. 1 mm closer to the flange) provides the optimum action efficiency – particularly when used with the New York Improved (NYI) hammershanks and flanges.</i>

ITEM #	DESCRIPTION	UNIT OF MEASURE	PRICE
TOP LID NOTES: • <i>Tops are sold with the front and rear sections, and include the lockbar and topslip. The continuous hinge, the butt hinges, screws and rubber buttons are not included.</i> • <i>The tops are no longer made with locks, so a lock would not be included.</i> • <i>If the top is wood other than ebony, a part of the piano should be sent in to the Parts department for color matching. A cheekblock should be fine.</i> • <i>Model B tops have changed over the years, so a serial number would be important. There's a good chance that the bevel on the edge may also have changed. In some situations, we may need a paper tracing of the top in order to duplicate it.</i> • <i>Tops cannot be delivered to residential areas. The top shipping box is a special packing box that allows us to ship the top safely. Shipping would be via truck, freight collect, which means that you would pay the charges directly to the driver. We usually use Keyboard Carriage. The shipping address must be able to accommodate a large tractor trailer and cannot be in a residential neighborhood. (The trucks usually can't maneuver through the streets.)</i> • <i>Tops are considered a special order, and a 50% deposit is required before starting the work. If the top is returned, there will be a restocking fee. ETA is 3 – 6 months. If the model is in current production it may take less time.</i>

The World-Wide Technical Reference Guide is the latest edition of our service manual. This edition represents an extensive collection of service information that supersedes previous versions and is the official service guide for both Hamburg and New York manufacturing plus the Boston and Essex series of Steinway designed pianos. The publication consists of 165 pages with full color photos to illustrate techniques and procedures.

Topics by chapter are:

- *Grand Preparation*
- *Grand Regulation*
- *Grand Dampers and Sostenuto*
- *Tuning and Voicing*
- *Upright Regulation*
- *Specifications and Service Techniques*
- *Finish Tips and Techniques*
